A GUIDED JOURNAL WRITTEN FROM YOUR FUTURE, ALREADY LIVING IT

My Best Life

This journal is written like it already happened. You're not planning your dream life - you're journaling from inside it, years from now, present tense, done deal. Your mind can't tell the difference between vividly imagined and real. So we use that.

Your mind can't tell the difference. Use that.

SECTION ONE

Setting the Scene

It's years from now. What's the date? Where do I live?

Describe my morning, start to finish, in this future life.

Who's around me? Who isn't anymore?

She already lives there. You're just catching up.

SECTION TWO

The Life I'm Living (present tense, as if it's now)

My work and career look like this...

My relationships look like this...

My body and health feel like this...

My money situation is this...

Present tense. No doubt. No hedging.

SECTION THREE

How I Got Here

The hardest year was __, and here's how I got through it.

The moment I knew things were changing was...

The habit I built that changed everything was...

This life is already yours on paper. Now build toward it.

SECTION FOUR

Bringing It Back

What's one thing from this future I can start doing today?

What would today-me think if she saw this life?

Write it like it already happened. It's already becoming.

FROM THE FUTURE

Today, I...

Your mind can't tell the difference. Use that.

FROM THE FUTURE

Today, I...

She already lives there. You're just catching up.

FROM THE FUTURE

Today, I...

Present tense. No doubt. No hedging.
